

CERTIFICATE OF ADEQUACY

I, Robert H. Scott, Registered Professional Engineer, in the State of Michigan, Registration No. 16,670, do hereby certify that I have investigated the design of the 20 mil P.V.C. liner for the so-called Ten Mile Road Landfill, and hereby state the following:

1. The side slopes of the native material have been investigated, and using standard engineering practices, I have determined that they are satisfactory, with the slope of two horizontal to one vertical.

2. I have investigated the structural strength of the 20 mil P.V.C. liner, and based on its tensile strength of 2,200 lbs. per square inch, with a weight of .014 lbs. per square foot, that this material is structurally adequate to ^{place} ~~put~~ in the landfill cells as designed.

A handwritten signature in cursive script, reading "Robert H. Scott". The signature is written in dark ink and is positioned above a horizontal line.

Robert H. Scott
